

VACMASTER® MACHINES FOR HOME USE

VP112A

The compact VP112A weighs less than 60 pounds, making it a good choice for chefs who need a powerful but portable vacuum sealer. The clamp holding down the pouch during the vacuum cycle makes for fewer failed seals. The electronic panel gives you full control over vacuum power and seal time.

VP112A

PRO140

Using the same vacuum-sealing technology as larger commercial machines, this non-chamber sealer is affordably priced and features a pulse sealing option, an automatic marinating program, double seal wire and a locking lid.

PRO140

Warranty: 1 Year limited parts* & labor

ALFA #	CHAMBER SIZE	# SEAL BARS & LENGTH	VACUUM PUMP	ELECTRICAL SPECS	SHIPPING WEIGHT	DIMENSIONS BOXED
PRO140	N/A	(1) 12"	Dual Piston-Pump	110V - 60Hz	14 lbs.	20" x 7.25" x 14"

**Note: Seal bars are not a warranty item, but are considered a "wear" item*

SOUS VIDE COOKING SYSTEM

A new tool for sophisticated chefs, the Sous Vide Cooking System allows even novice kitchen workers to finish off fantastic meals! The low, consistent temperatures used in sous vide cooking ensure improved food texture, doneness and taste. Simply immerse your vacuum-sealed pouch into your cooking receptacle and the Sous Vide cooker console heats and circulates the cooking water. You'll get your best results when cooking food sealed inside VacMaster's® Chamber Pouches. Plate your food directly from the bag or sear briefly to crisp the exterior.

- Easy-to-use digital control panel
- Low water level alarm
- Space saving design
- Stainless steel for easier cleaning
- Quiet, low voltage circulation pump
- Heats up to 30 liters of water
